

A TITAN ONE PIECE CHAIRS

Ergonomic classroom chair designed especially for children. A virtually indestructible one piece chair. Manufactured from solid high impact polypropylene. S-shaped back design helps aid posture and maintain a healthy spine. Lumbar support reduces discomfort and 'fidgeting'. Unique anti-tilt leg system prevents children leaning back on the chairs. Lightweight and portable with hand hole in the backrest for easy lifting. Stacks up to 12 high for space saving storage. Choose from 5 seat heights to suit all age groups. Available in a selection of popular colours.

B GOGGLE ONE PIECE CHAIRS

The latest, unique and very different, Goggle chair. This chair features a one piece blow moulded shell, a one piece welded frame and linking glides. The blow moulded shell is the next best thing to an upholstered chair. The double 'skin' shell with air in between, acts as an air cushion, which provides a far more comfortable 'sit' than you traditional injection moulded seat. The one piece shell gives some 'dynamic' movement, as the shell flexes, which ensures a more comfortable chair than a fixed 2 piece chair. The chrome plate is of a superior quality, with the shell being UV resistant and has a drain hole for any accidental spillage. Available in two frame heights, 460mm and 500mm, and in three attractive colours.
